

The enterprise «KALYVAS S.A.» has been supported under the Action “Transition to innovative, extroverted and smart specialization” of the Programme ‘Central Macedonia 2021 2027’ which is implemented with the cofinancing of the European Union and National Resources. The project concerns the installation of a Wastewater Treatment Plant within the campsite premises, as part of the modernization of its core infrastructure, with the aim of strengthening the company’s environmental profile and generating positive impacts on the quality of the services provided, its competitive position, and its outward-looking orientation. The total budget of the project amounts to 399.998,10 € and Public expenditure to 179,999.14 €.
